Family Nurse Practitioner/Physician Assistant (FNP, PA)

Are you looking for a fun and exciting part-time/full-time career that offers autonomy, great pay, paid vacation, dental and medical benefits, and CME reimbursement?

As a Family Nurse Practitioner/Physician Assistant with us, you will be the primary provider of services while most often having support of a medical assistant and access to a collaborating physician as needed. We are an FQHC Look-A-Like that serves the community. We are seeking positive and patient-driven candidates to join our team.

FNP/PA role and responsibilities:

- Diagnosing, treating, and helping patients manage acute and chronic illnesses
- Conducting physical examinations and interpreting medical history
- Ordering and performing diagnostic tests and procedures
- Prescribing age-specific physical therapy and rehabilitation
- Prescribing pharmacologic treatments (depends on state regulation)
- Providing prenatal care, family planning services, and screening services
- Primary and specialty care services for adults and children
- Performing minor surgeries and procedures
- Counseling and educating patients about preventive measures to avoid illness

FNP/PA Education and Skills:

- Talent for cultivating a positive and energetic team atmosphere
- ANCC or AANP board certified required
- Current and unrestricted license from the Minnesota Board of Nursing to practice as an advanced FNP/PA in the State of Minnesota.
- Annual continuing medical education as required by Board specialty
- NPI # or has applied for NPI #
- Desire to be in a patient-centered, healthcare setting
- Excellent bedside manner with solid customer-oriented presentation skills
- Capable of multi-tasking in a fast-paced environment, where you are often moving from station to station
- Ability to working autonomously and adapt to changing environments
